The NAB have NO right to try and stop this. I pay monthly for this service, as does every other subscriber, and the NAB better realize they dont have a right to tell me or any other person what they can or cannot listen to. I listen to XM b/c I am sick and tired of AM & FM stations playing 10-15mins worth of commercials and then 5 mins worth of music. Plus I can get the traffic and weather together in a matter of minutes, instead of waiting on an AM or FM station giving the traffic evry 15-30 mins and not a min before or after. REJECT PETITION 04-160 .
